

- Reactive Doggo Grooming Program -

Our 8-Week Reactive Dog Grooming Program is specially designed for dogs who are fearful, anxious, or have had difficult grooming experiences in the past. With patience, trust-building, and a lot of love (and treats, obviously), we help pups learn that grooming doesn't have to be scary.

Why It Works

Because we see your dog, not just the behaviour. Every bark, flinch, or snap is a message. We listen, we adapt, and we work at your dog's pace. No drama. No force. Just compassion and expert care by an assigned team member. Let's help your pup feel safe in their own skin—and their own fluff.

Week 1 Meet + Greet

We start with a low-pressure introduction. Our groomers observe your dog's triggers and tolerance levels as they begin the bonding process in a safe, private space.

Weeks 2-4 Trust + Touch

Gradual exposure to grooming tools and processes. No forced handling. We focus on desensitization and positive reinforcement, building comfort step-by-step.

Weeks 5-6 Gentle Grooming Begins

We start full grooms tailored to your dog's comfort level. Sessions remain short, flexible, and always end on a good note—no rushed or forced finishes here.

Weeks 7-8 Progress + Polish

Your dog will be completing more consistent grooming sessions. We review progress and adjust the plan if your pup needs a bit more time. Goal: A happy dog who trusts the process.

Price: \$550
